State with most Youtube Traffic

This graph depicts the youtube traffics among different states of USA, Florida has the maximum youtube traffic.

It is a map plot which uses orange-blue diverging color scheme

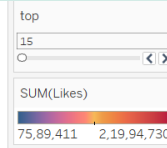

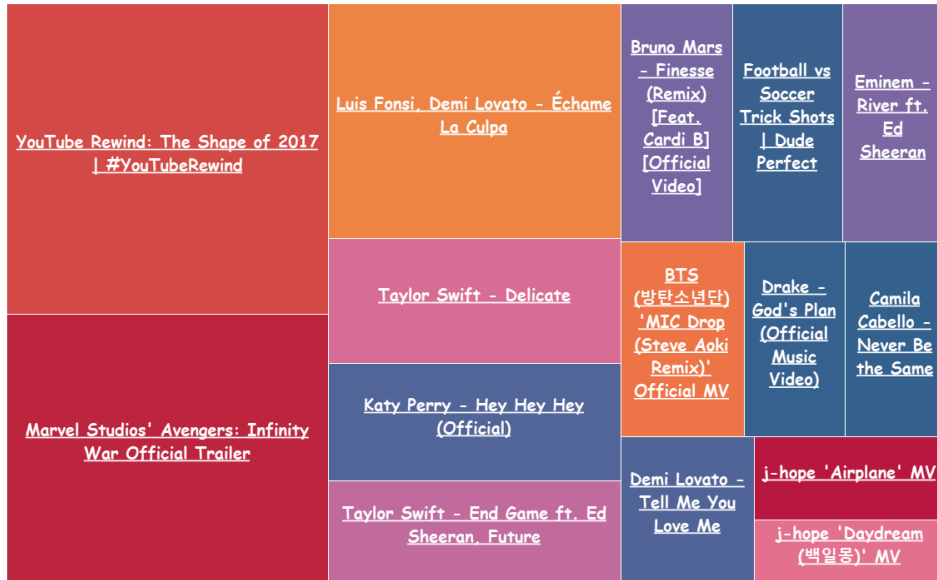

Most Viewed Channels and their Likes

This graph shows the most popular channels on youtube . Apparently Marvel Entertainment is the most viewed channel.

The light part of the bar shows the number of views whereas the dark part of the bar shows the number likes on that channel. The plot is dynamic as the number of channels can be changed using the slider

Most Liked Videos on Youtube

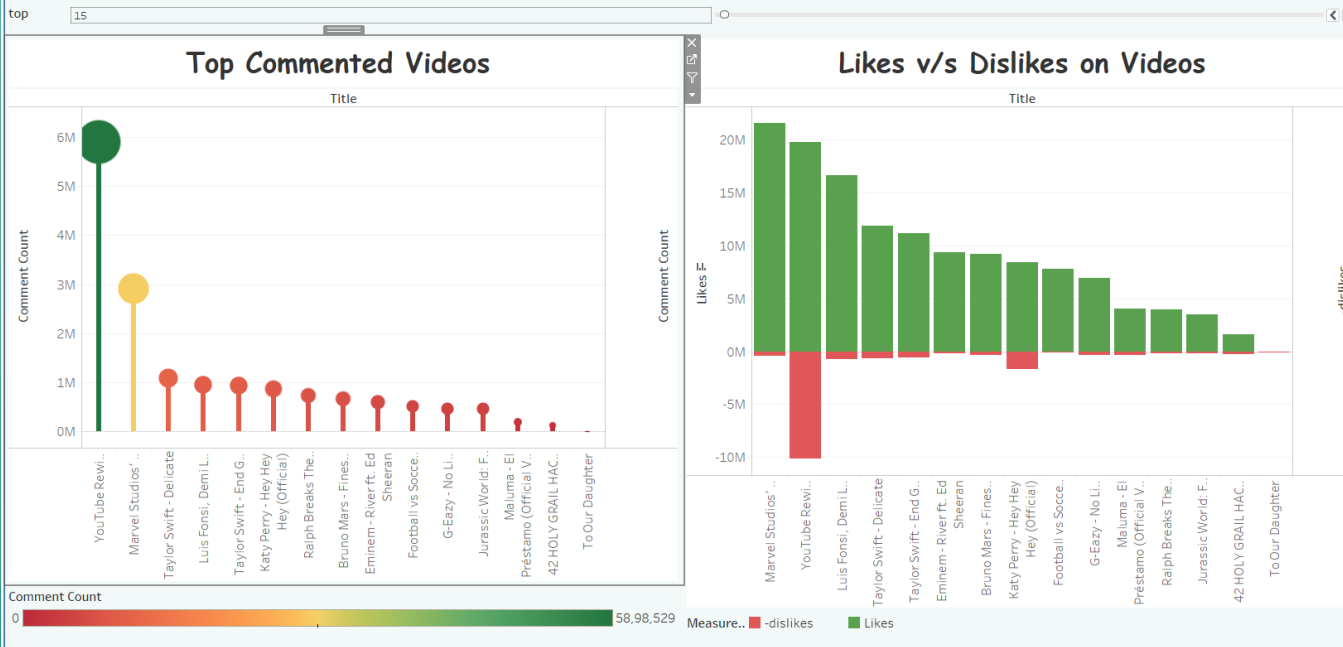

Avenger's infinity war trailer was most liked video on youtube

This is an area chart in which size depends on the number of views and color on likes. Also dynamic as it can toggled using the slider for more videos

Color scheme – Sunset-Sunrise Diverging

Youtube Video Statistics

Final dashboard uses o charts lollipop chart and 2 way bar-graph also is dynamic and can be toggled using the slider main sheet is the top commented videos and controls the the other sheet by highlighting the info about the hovered lollipop on the graph itself

Resources and links to the dashboard

Dashboard link :-

<https://public.tableau.com/profile/aurobind.singh#!/vizhome/youtubevideostatistics/Dashboard1>

Also I am giving you the actual workbook too as I use tableau desktop and my tableau public shows only the dashboard on it not the worksheets

Several white lines of varying lengths and slopes are drawn in the bottom right corner of the slide, creating a modern, abstract graphic element.
